

CORPORATE DAYS

Reward the achievers in your organisation. Thank your loyal customers for their business. Get to know the people you'd like to know better.

We can put a balloon carrying your company name, pilot and full crew at your disposal anywhere anytime! For just one day.

If you need something more we can arrange exclusive locations, full catering, anything in fact which would make the day unforgettable for everyone.

Unsure? Then take a flight yourself, the cost of which is fully refunded if you book a minimum of one corporate day with us.

Time and location to suit you.

PLEASURE FLIGHTS

Birthdays, Weddings and Special Occasions

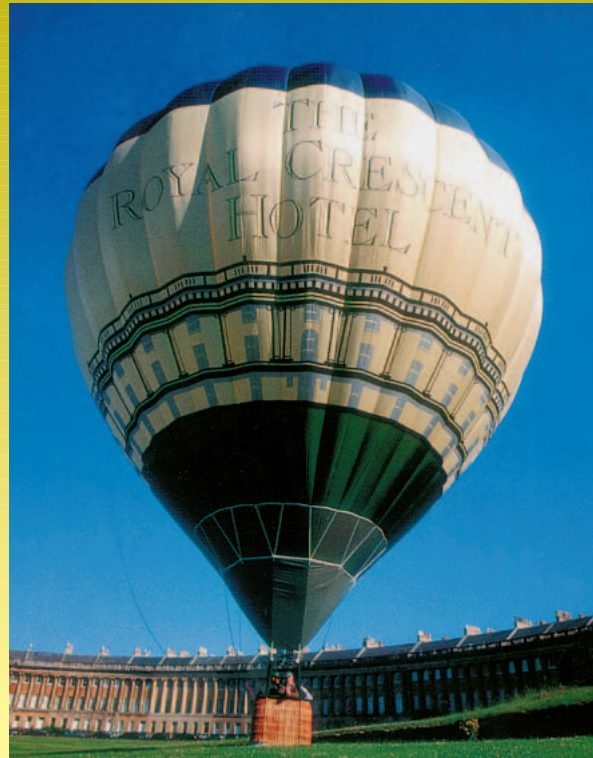

We fly daily, weather permitting, from Royal Victoria Park in the very heart of Bath. On lift off you will immediately be presented with an aerial view of the Royal Crescent - one of Bath's most impressive landmarks. If the wind is favourable you will look down into the steaming Roman Baths, fly over Bath Abbey and Pulteney Weir.

About one hour later we'll land in the gentle countryside where our retrieve crew will pack the balloon away and bring us all back to Royal Victoria Park. Allow three hours for the full experience.

Only in Bath for one or two days? We are the leaders in arranging instant flights.

Give yourself a treat or someone else a surprise flight they will never forget. Gift vouchers available.

CAA BL106

PRODUCT MARKETING

Probably the most DRAMATIC, COST-EFFECTIVE, VERSATILE and FUN way to put across your company message all year round!

A 70ft hot-air balloon carrying your company's message in view of a targeted audience has dramatic impact. Free television and press coverage make it a low cost way to get your message across to large numbers of people, and this can be done at the locations you choose to target.

We offer a total balloon management package commencing with involvement in the design of your own balloon through to storage, transport, flying, tethering, location scheduling and public relations. Tell us what your targets are and leave the rest to us!

PILOT TRAINING

Anyone who can drive a car can learn to fly a modern hot-air balloon. It is uncomplicated; its control in fair weather can be adequately mastered by most people in only eight to twelve hours of instruction.

To gain your own Private Pilot's Licence you must pass a flight test, complete a solo flight, have a minimum of 16 hours' flying experience including 3 instructor flights. We will also help you pass written exams in Air Law, Meteorology, Navigation, Balloon Systems and Human Performance.

We can make it happen for you! Use our balloon, our own BBAC appointed instructor and our ground school tutor for the written exams.

This is for a PRIVATE Pilot's Licence - all ASCENT Pilots hold full Commercial Licences, have experience rated in 100's of hours and are CAA licensed to carry passengers.

Unsure? Then take a trial lesson, the cost of which is refunded in full if you do all your training with us.
